

HEMA KARUMURI

Frontend Developer | React.js & JavaScript | Enterprise Web Applications

+91-9381612019 | karumurihemak@gmail.com | [LinkedIn](#) | Gandhinagar, Gujarat

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building enterprise-grade, high-traffic web applications using React.js (Hooks, Context API), JavaScript (ES6+), HTML5, and CSS3. Skilled in designing component-driven UI architectures, integrating REST APIs, and optimizing customer-facing workflows for global clients. Proven track record of improving performance, usability, and conversion through data-driven UI design. Actively expanding into SharePoint Online, SPFx, Power Platform, and Azure to support enterprise digital transformation initiatives.

TECHNICAL SKILLS

Frontend: React.js (Hooks, Context API), JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI, Fabric UI

Enterprise & Platform: SharePoint Online, SharePoint REST APIs, SPFx, Power Apps, Power Automate, Azure

API & Data: REST API Integration, JSON, CRUD Operations, Postman, MySQL

Tools & DevOps: Git, GitLab, CI/CD Pipelines, AWS, JIRA

Quality & Delivery: Unit Testing, UAT Support, Defect Resolution, Agile/Scrum, Code Reviews, Documentation

WORK EXPERIENCE

Frontend Developer — Tata Consultancy Services (TCS)

Gandhinagar, Gujarat, India | Sep 2022 – Present

- Designed and developed 25+ reusable React.js components, reducing development time by 30% and improving UI consistency across enterprise applications.
- Built scalable single-page applications (SPA) using React.js, JavaScript, HTML5, CSS3, and Bootstrap, supporting high-traffic customer workflows for global clients.
- Integrated and validated 20+ REST APIs using JSON and Postman, ensuring accurate handling of product configuration, subscription mapping, and billing data.
- Optimized critical customer journeys, reducing workflow steps by 40% and increasing conversion rates by 25–40%.
- Implemented pre-sales and post-sales self-service modules, enabling 80%+ customer self-service and reducing operational support dependency.
- Resolved 30+ UAT and production defects via JIRA, improving system stability and release quality.
- Interfaced with global client stakeholders, QA teams, and product owners to gather requirements and deliver enhancements aligned with business goals.
- Supported Agile/Scrum ceremonies, sprint planning, and CI/CD deployments using Git, GitLab, and AWS pipelines; authored technical documentation and UI guidelines.

PROJECT EXPERIENCE

CFL Project — London Client (React Migration & UI Modernization)

React.js | TypeScript | Next.js | JavaScript | Figma | REST APIs | Jest | Git

- Led frontend migration to a modern React architecture, decreasing UI-related production defects by 30% through scalable, modular component design.
- Built modular, reusable React components and transformed Figma wireframes into fully responsive, pixel-perfect UI components with high fidelity.
- Contributed solutions during team discussions with global stakeholders to deliver features within tight sprint timelines.
- Documented application processes and component workflows, enabling faster onboarding and significantly reducing knowledge transfer gaps.

KEY ACHIEVEMENTS

- Reduced customer journey complexity by 40%, driving measurable gains in usability and conversion.
- Improved product discoverability by 25% through intuitive, data-driven UI design.
- Delivered production-ready solutions for international enterprise clients, meeting stringent quality and compliance standards.
- Recognized for strong client communication, ownership, and delivery reliability within cross-functional teams.

CERTIFICATIONS

- React – The Complete Guide (Redux & Next.js) — Udemy, 2026
- Microsoft Azure Security Technologies (AZ-500) — Microsoft, 2022

EDUCATION

B.Tech, Electronics and Communication Engineering

PVP Siddhartha Engineering College, Vijayawada, Andhra Pradesh — 2022
